

CONTENTS

Acronyms	vii
Summary.....	S-1
Chapter I: Purpose and Need	I-1
A. Introduction	I-1
1. Study Area Description	I-1
2. Project Background	I-3
3. Logical Termini/Independent Utility	I-4
B. Elements of Purpose and Need	I-5
1. Address Traffic Congestion and Safety Concerns	I-7
2. Complete the Major Highway Linkages between Eastern Boone County and Columbia	I-11
3. Improve Access to Eastern Columbia	I-14
Chapter II: Alternatives.....	II-1
A. Overview of the Alternatives Development Process	II-1
B. Development and Evaluation of Conceptual Alternatives	II-2
1. Background: History of East Columbia Projects	II-2
2. Process Used to Develop Conceptual Alternatives.....	II-4
3. The Conceptual and No-Build Alternatives	II-5
4. Evaluation of Conceptual Alternatives	II-6
5. Conceptual Alternatives Recommended for Further Consideration	II-11
C. Development of the Reasonable Alternatives	II-11
1. Extension of Stadium Boulevard from US-63 to I-70	II-12
2. Improvement of Broadway (Route WW)	II-12
3. Possibility of a Ballenger Lane Extension.....	II-13
4. Other Permutations Considered during the Evaluation of Reasonable Alternatives	II-14
D. Evaluation of the Reasonable Alternatives	II-15
1. Reasonable Alternative Traffic Evaluation	II-16
2. Reasonable Alternative Construction Cost Evaluation	II-17
3. Reasonable Alternative Impact Summary.....	II-18
E. Preferred Alternative.....	II-20
1. Key Elements Associated with the Preferred Alternative.....	II-21
2. Important Decision-Making Elements that Led to the Preferred Alternative	II-21
Chapter III: Affected Environment.....	III-1
A. Social and Economic Characteristics.....	III-1
1. Demographic and Economic Profile	III-1
2. Community Resources—Facilities, Institutions and Services	III-10
3. Transportation Planning Environment	III-14
4. Land Uses and Planning Environment	III-16

B. Environmental and Related Resources III-21

- 1. Mineral Resources III-21
- 2. Farmland Resources III-21
- 3. Groundwater and Water Supply III-22
- 4. Surface Water Resources III-22
- 5. Water Quality III-24
- 6. Floodplains III-25
- 7. Wetlands and Ponds III-26
- 8. Terrestrial Habitats and Wildlife III-27
- 9. Threatened and Endangered Species III-28
- 10. Hazardous Substances III-29
- 11. Air Quality III-29
- 12. Traffic-Noise Environment III-31
- 13. Cultural Resources III-34
- 14. Visual Resources III-36
- 15. Section 4(f)/Section 6(f) III-37

References III-39

Chapter IV: Environmental Consequences IV-1

A. Social and Economic Impacts IV-2

- 1. Demographics and Environmental Justice IV-3
- 2. Community Resource Impacts IV-3
- 3. Consistency with Transportation Planning Goals IV-6
- 4. Acquisition, Land Uses and Planning Impacts IV-7

B. Environmental Impacts IV-15

- 1. Mineral-Resource Impacts IV-15
- 2. Farmland-Resource Impacts IV-15
- 3. Groundwater and Water-Supply Impacts IV-16
- 4. Surface Water Resource Impacts IV-16
- 5. Floodplain Impacts IV-20
- 6. Wetland and Pond Impacts IV-20
- 7. Terrestrial Habitats and Wildlife Impacts IV-24
- 8. Threatened and Endangered-Species Impacts IV-27
- 9. Hazardous Substance Impacts IV-28
- 10. Air Quality Impacts IV-29
- 11. Traffic-Noise Impacts IV-29
- 12. Cultural Resource Impacts IV-31
- 13. Visual-Resource Impacts IV-31
- 14. Section 4(f)/Section 6(f) Impacts IV-32

C. Measures to Minimize Harm IV-33

- 1. Right-of-Way Acquisition and Relocation Program IV-33
- 2. Traffic Management IV-34
- 3. Noise and Air Quality IV-35
- 4. Borrow and Disposal IV-35
- 5. Water Quality, Hydrology, and Hydraulics IV-35

D. Relationship between Local Short-term Uses of Man’s Environment and the Maintenance and Enhancement of Long-term Productivity IV-36

1. No-Build Alternative IV-36
 2. Build Alternatives IV-36
 E. Irreversible and Irretrievable Commitments of Resources..... IV-37

Chapter V: Comments and Coordination V-1

A. Public Involvement Plan V-1
 1. Project Web Site and E-Mail Address V-1
 2. Public Involvement Meetings V-2
 3. Study Newsletters and Printed Materials V-6
 B. Agency Coordination V-6
 1. Notice of Intent V-7
 2. Cooperating Agencies V-7
 3. Participating Agencies V-7
 4. State and Federal Agency Comments V-7
 5. Study Management Team and CATSO Meetings V-10

Chapter VI: DEIS Distribution List VI-1

Tables

S-1 Impact Summary for the Reasonable Range of Alternatives S-13
 S-2 Impact Summary—Preferred Alternative S-15

I-1 Purpose and Need Summary..... I-6
 I-2 Type and Number of Crashes for 2003-2007 I-7
 I-3 Comparison of Crash Rates (CR) Study Area roadways to Statewide Averages
 (SWA) for Similar Road Types, Per Hundred Million Vehicles Miles Traveled I-8
 I-4 Existing (2005) and Forecasted (2030) Daily Two-Way Traffic Demand and
 Level of Service (LOS) I-9
 I-5 Intersection Level of Service Analysis—2005 and 2030 I-11

II-1 Summary of Costs Associated with Route 740 Extensions II-17
 II-2 Summary of Costs Associated with Ballenger Lane Extensions..... II-17
 II-3 Summary of Costs Associated with Route WW Improvements..... II-18

III-1 Population Data III-2
 III-2 Age Data (Year 2000)..... III-3
 III-3 Race and Ethnicity Characterisitcs (Year 2000)..... III-5
 III-4 Housing Characteristics (Year 2000)..... III-5
 III-5 Employment by Sector III-8
 III-6 Top Employers in the Columbia Area III-9
 III-7 Personal Income Data (Year 1999 Dollars)..... III-10
 III-8 Federal Endangered or Threatened Species Known to Occur within Boone
 County III-28
 III-9 National and Missouri Ambient Air Quality Standards III-30
 III-10 Noise Abatement Criteria, Hourly A-weighted Sound Level-Decibels (dBA) III-32

III-11 Sensitive Receptors and Design Elements that may affect the Traffic-noise Environment..... III-35

III-12 Section 4(f)/Section 6(f) Resources III-38

IV-1 Summary of the Right-of-Way Acquisition by Alternative IV-9

IV-2 Summary of the Structures Relocated by the Alternatives IV-11

IV-3 Commercial, Industrial and Institutional Structures Affected by the Reasonable Alternatives IV-12

IV-4 Summary of the Right-of-Way Acquisition Costs by Alternative IV-13

IV-5 Stream Impacts Associated with Reasonable Alternatives IV-17

IV-6 Wetland Encroachments Associated with Reasonable Alternatives IV-22

IV-7 Direct Impacts to Terrestrial Habitats by Reasonable Alternatives IV-25

IV-8 Expected Design-Year Noise Levels—Preferred Alternative IV-30

V-1 Agency Scoping Coordination V-8

V-2 Evaluation Criteria Coordination V-9

V-3 Evaluation of Preferred Alternative V-10

Appendices

- A Safety and Accident Data
- B List of Preparers
- C Partnering Agreement
- D Public Involvement Plan
- E Public Information Meeting Summaries
- F Agency Coordination Plan
- G Agency Correspondence

Materials Available in the Project’s Technical File

In order to keep NEPA documents as concise as possible, technical detail and backup information are made available in the project’s technical file. The file contains all pertinent materials to support the information and conclusions presented in this Environmental Impact Statement. The technical file is available for public review, upon request, when the NEPA document is circulated.

All of the materials referenced in this document are contained in the technical file. These materials include:

- Environmental Site Assessments
- Engineering design studies produced to investigate public input/agency comments/project team inquiries
- Public involvement materials such as news releases, meeting advertisements and newsletters
- Cultural resource investigation reports
- Public involvement meeting/project team workshop materials
- Agency coordination point materials
- GIS database material
